You will not be examined on the *proofs* of

▷   Łoś's Theorem (Theorem 5.7)

▷   the Ryll-Nardzewski Theorem (Theorem 9.12)

However, you are expected to know the statements of these theorems, and to be able to apply them.

You will not be examined on small theories (Definition 9.13, Proposition 9.14, Corollary 9.15).
